

Moving Services

Three Rivers Home Staging offers to be Your Moving Concierge™ – a resource you and your family need and want to make moving as easy as possible. Whether you're a young family or a veteran at relocation, having a resource during one of the most stressful events people have to deal with can be an incredible blessing. Here are just a few of the tasks we can take off your hands:

- + Requesting a proposal from movers.
- + Helping you select a mover.
- + Arranging for the packing of your home.
- + Locking the door on your former house and opening the door to your new home to accommodate the movers.

In addition, we provide checklists that keep you focussed on what only you should do, as well as information about your new location designed to make your transition easier. In Three Rivers Home Staging you will find an incomparable resource . . . an extra man advantage at a time when it really matters.
