

Staging Services

Three Rivers Home Staging services are based on a system developed by the Home Stagers and Redesigners Association. This time-tested system covering eight phases enables our stagers to complete projects on-time and on budget – with spectacular photographic results. .

Half Day of Home Staging — \$250

- + This service is for those homes that need just a little more attention and expertise to complete than can be accomplished during a consultation.
- + The Three Rivers Home Staging HSR Certified Professional Home Stager & Re-designer will be working from our eight-step HSR Action Plan. In the consultation, we began to make dramatic transformations to the main areas of the home. At this point, the stager brings in accessories to complete the look of each room, take great photos for your agent’s marketing efforts, and give you a visual of what to purchase that goes a long way in updating each room of the home.

Full Day of Home Staging or Interior Redesign — \$500 per Stager

- + This service is for those properties that are larger, have more rooms requiring attention, or require furnishings to be pre-moved or swapped out.
- + We spend a full day making dramatic transformations to your home. You won’t believe the difference a day can make! You’ll see what it’s like to sell a “move-in-ready” house designed to sell faster and for the right price!

New Listing or Open House Staging Weekend — \$1,000 per Stager

- + This service is perfect to make a great first impression for the house that is just about to go onto the market or have an Open House!
- + Based on the amount of work to be done, one or more stagers will spend two full days prior to that weekend transforming the house into a buyers’ dream.

To get the right price, every house should go through our complete home staging transformation before being listed!
